

TECHNICAL SHEET

Acid Etched / Sandblasted Glass

The Acid Etched Glass offers the perfect translucent satin look with a wide range of colours and customizable designs. Its anti-fingerprint properties reduce time-consuming maintenance and ensure that the glass remains crystal clear.

- Enhances privacy without blocking natural light
- Creates a sophisticated architectural appearance
- Customizable with decorative designs and branding
- Reduces glare
- Compatible with various architectural glass systems
- Long-lasting decorative finish when properly maintained
