

LE-GARDIEN

TECHNICAL SHEET

BLD560

High acid glass glue

PRODUCTS SPECIFICATIONS

CATEGORY	DETAILS
Product Type	BLD560 single-component silicone sealant
Curing Type	Acetic, normal temperature curing
Appearance	(Not specified)

TECHNICAL PARAMETERS

PARAMETER	SPECIFICATION
Curing Speed	Fast curing
Temperature Range Performance	(Not specified)
Structural Use	Not suitable for structural sealing applications

PERFORMANCE AND USAGE

ASPECT	DESCRIPTION
Weather Resistance	Excellent weatherability
Adhesion	Good adhesion and elasticity to most building materials
Material Compatibility	Suitable for glass, aluminum alloys, ceramics, glass fiber, and non-oily wood
Applications (General Sealing)	Adhesion and sealing for various glass and cabinet projects
Applications (Doors & Windows)	Waterproof sealing for aluminum alloy doors and windows with glass
Applications (Special Uses)	Joint sealing for small aquariums and dot-matrix curtain wall sealing
Limitation	Not suitable as structural sealant

PACKAGING, STORAGE, AND TRANSPORTATION

CATEGORY	DETAILS
Packaging	(Not specified)
Storage Conditions	Store separately in cool, dry place below 27°C
Shelf Life	9 months from production date
Transportation	Non-hazardous goods
Marks	JC/T485-2007
